

# SkyPower

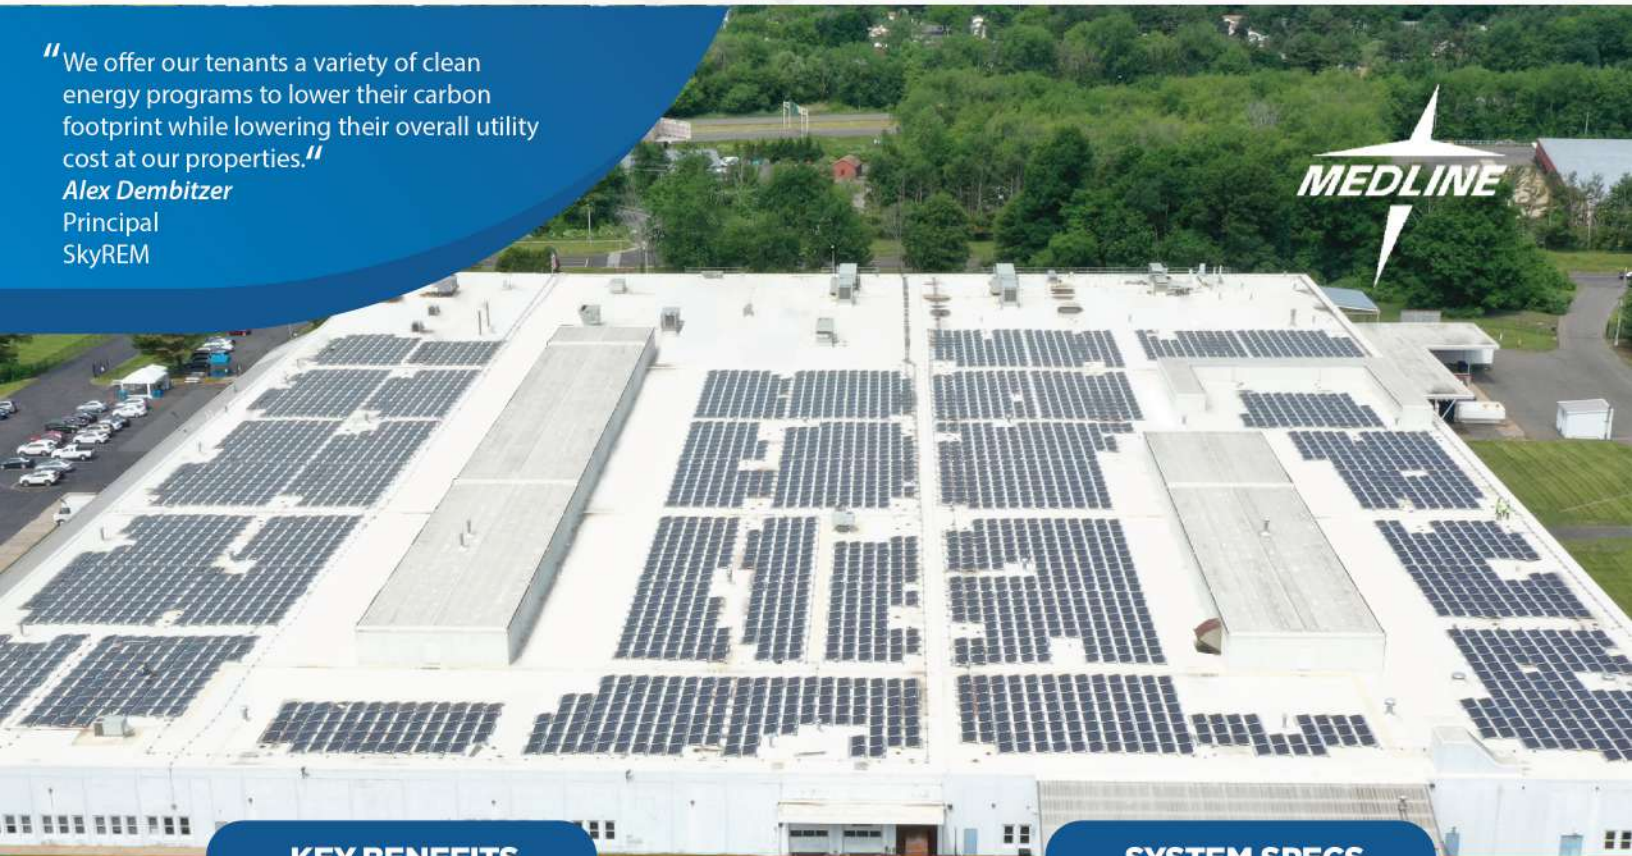

An affiliate of SkyREM

A leading provider of solar systems that turn businesses into sustainable energy hubs.

SkyPower, LLC, an affiliate of SkyREM, LLC, has a strong passion to make a positive environmental impact. For every property in SkyREM's large portfolio, careful analysis is done to maximize the opportunity of installing renewable energy sources to power the building. SkyPower is a leading provider of solar systems that turn businesses into sustainable energy hubs. Its latest success story is a custom designed 1.32 MW commercial rooftop solar system for Medline Industries, Inc.

"We offer our tenants a variety of clean energy programs to lower their carbon footprint while lowering their overall utility cost at our properties."

Alex Dembitzer  
Principal  
SkyREM

## KEY BENEFITS

- Carbon sequestration is equivalent to 1,745 acres of US forests in one year
- Reduces CO2 emissions from 1,244,162 pounds (12,455 tons) of coal burned every year
- Generates enough energy to power more than 145 homes
- Revenue for electricity generated thanks to ZREC
- Environmentally friendly energy recovery that reduces Medline's own energy costs and conserves resources

## SYSTEM SPECS.

**PANEL TYPE:** Hanwha Q.PLUS L-G4.2 345w  
**PANEL COUNT:** 3828  
**INVERTER TYPES:** 9 SolarEdge 100k inverters and 3 SolarEdge 33.3k inverters  
**SYSTEM SIZE:** 1.32 MW  
**RACKING TYPE:** Rooftop  
**MONITORING SYSTEM:** SolarEdge  
**ZREC MONITORING SYSTEM:** Ion Eversource Monitor
